Carbon Reduction Plan 2026 - The Blue Tree Clinic

Publication Date:

01/01/2026

Commitment to Achieving Net Zero

Blue Tree Clinic is committed to achieving Net Zero greenhouse gas emissions by 2050 in accordance with UK Government targets.

We recognise the importance of minimising our environmental impact and are committed to embedding sustainable practices across our clinical and administrative operations.

Baseline Emissions Footprint

Baseline Year: 2024

Emissions Source	tCO_{2e}
-------------------------	-------------------------

Scope 1 (Direct emissions – none)	0.0
-----------------------------------	-----

Emissions Source	tCO₂e
Scope 2 (Purchased electricity)	3.8
Scope 3 (Indirect emissions)	18.6
Total Emissions	22.4 tCO₂e

Scope 3 Breakdown (Included Sources):

- Business travel (staff commuting and limited clinical travel) – 10.5 tCO₂e
 - Purchased goods and services (IT, clinical supplies) – 4.2 tCO₂e
 - Waste generated in operations – 1.1 tCO₂e
 - Upstream energy (well-to-tank) – 1.3 tCO₂e
 - Homeworking (remote consultations and admin) – 1.5 tCO₂e
-

Current Emissions Reporting

Reporting Year: 2025

Emissions Source	tCO₂e
Scope 1	0.0
Scope 2	3.2
Scope 3	16.9
Total Emissions	20.1 tCO₂e

This reflects a **10.3% reduction** from the baseline year.

Emissions Reduction Targets

Blue Tree Clinic is committed to achieving the following reductions:

- **By 2030:** 40% reduction from baseline emissions
 - **By 2040:** 70% reduction
 - **By 2050:** Net Zero
-

Carbon Reduction Initiatives

The following environmental management measures are currently implemented and will continue during contract delivery:

Clinical Delivery Model

- High utilisation of **remote consultations** to reduce patient and clinician travel
- Hybrid service delivery to minimise unnecessary in-person appointments

Energy Use

- Use of **energy-efficient lighting and equipment** within clinic premises
- Preference for premises with **efficient heating systems and smart controls**
- Reduction of out-of-hours energy consumption

Digital and Paper Reduction

- Fully **paper-light clinical systems** and digital record keeping
- Electronic prescribing and reporting wherever possible

Travel Reduction

- Encouragement of **public transport use** for staff
- Minimisation of non-essential business travel
- Remote meetings as default for internal and external communication

Procurement

- Preference for **UK-based suppliers** with sustainable practices
- Reduction in single-use items where clinically appropriate
- Responsible sourcing of IT equipment and services

Waste Management

- Compliance with clinical waste regulations
- Reduction and segregation of waste streams
- Engagement with licensed waste disposal providers

Future Measures

To further reduce emissions, Blue Tree Clinic plans to:

- Transition to **renewable electricity tariffs** where feasible
 - Improve measurement of Scope 3 emissions, particularly supply chain data
 - Introduce **formal sustainability policies and staff guidance**
 - Review supplier environmental credentials more systematically
-

Declaration and Sign-Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard.

This Carbon Reduction Plan has been reviewed and approved by senior management.
